#### **7 MAYORAL MINUTES**

#### **Item L.1 MAYORAL MINUTE - STATE SIGNIFICANT DEVELOPMENT APPLICATION: 300 BURNS BAY ROAD, LANE COVE**

**67 RESOLVED** on the motion moved by Councillor Southwood that Council:

1. write to the NSW Minister for Planning and Public Spaces requesting:
  - a) confirmation that the State Significant Development Application (SSD87925706) for 300 Burns Bay Road, Lane Cove will be referred to the Independent Planning Commission for determination,
  - b) the exhibition period be reopened for the SSDA for 300 Burns Bay Road, Lane Cove given the complexity of the proposal and level of community interest,
  - c) until such time as the new statewide Community Participation Plan is finalised, a 28-day exhibition period is applied to all SSD applications.
2. write to the NSW Minister for Planning and Public Spaces to express that Council and the local community remain concerned about the proliferation of state-led approval pathways created by the NSW Government, in this instance attracting a proposal whose height, bulk and infrastructure demands are entirely inconsistent with desirable planning outcomes set out in Council's strategic planning policies.
3. write to the State Member of Lane Cove and Federal Member for Bennelong seeking their support and assistance in implementing the above actions.

4. note a comprehensive objection to the application has been prepared by Council's Planning and Sustainability Division and the submission has been placed on Council's website.
5. note there is now a dedicated webpage related to State Significant Development Applications on Council's website to help our community better understand SSDA processes.

## **11 NOTICES OF MOTION**

### **Item 11.1 NOTICE OF MOTION - PARTNERSHIP WITH THE NATIONAL HEART FOUNDATION - COMMUNITY CPR & AED TRAINING INITIATIVE**

**69 RESOLVED** on the motion moved by Councillor Southwood and seconded by Councillor Roenfeldt that Council:

1. commit to participating in the Heart Foundation's Shockingly Simple community-based cardiopulmonary resuscitation (CPR) and Automated External Defibrillator (AED) training program.
2. provide suitable Council-owned venues, at no cost where appropriate, to facilitate the delivery of community training sessions.
3. support community engagement and participation by:
  - a) promoting the program through Council communication channels
  - b) facilitating connections with local community groups, including culturally and linguistically diverse communities; and
  - c) assisting with recruitment of volunteer trainers.

3. source required-equipment, including CPR manikins, training AEDs and associated resources, through the most cost-effective and sustainable means, including the option of hiring equipment.
4. request that Council investigate and report back via the Councillor Bulletin on opportunities to support a safe and accredited “train-the-trainer” pathway, delivered by the National Heart Foundation or a similar accredited organisation, that would enable interested residents and community members to become volunteer facilitators of CPR and Automated External Defibrillator (AED) education, with a view to expanding the reach, sustainability, and long-term impact of community training across the Lane Cove Local Government Area.

For the Motion were Councillors Southwood, Bennison, Bryla, Flood, Kennedy, Little, Roenfeldt and Taylor (Total 8).

Against the Motion was Nil (Total 0).

### **Item 11.2 NOTICE OF MOTION - ENHANCING URBAN BIODIVERSITY THROUGH SCALABLE HABITAT INITIATIVES**

**70** **RESOLVED** on the motion moved by Councillor Kennedy and seconded by Councillor Southwood that Council:

1. notes the importance of creating additional habitat for native fauna, including blue tongue lizards, within the Lane Cove local government area.
2. requests that staff investigate and report back to Council on a cost-effective urban habitat program that encourages participation by residents and improves habitat availability for native reptiles and other small fauna.
3. the report should consider:
  - a) low-cost habitat creation methods suitable for residential properties, including the use of repurposed materials such as clay pipes (eg sourced from resource collection points such as Kimbriki Tip), rock shelters, timber offcuts and other artificial refuges,
  - b) the relative costs of implementing the program and any implications it may have on Council’s adopted budgets,
  - c) that the program should be considered in conjunction with the Habitat Log Salvage program that was adopted for investigation at the March 2026 meeting,
  - d) opportunities for community participation and integration with existing Council initiatives such as the Backyard Habitat Program, Bush Friends, On the Verge Program, Bush Kids Activities and Nursery Workshops.

For the Motion were Councillors Southwood, Bennison, Bryla, Flood, Kennedy, Little, Roenfeldt and Taylor (Total 8).

**Item 11.3 NOTICE OF MOTION - EXEMPTION FOR EXISTING STRATA DEVELOPMENTS UNDER THE FOOD ORGANICS MANDATE**

**71** **RESOLVED** on the motion moved by Councillor Bennison and seconded by Councillor Taylor that Council:

1. notes that while compliance with the NSW Food Organics mandate is required, the practical impacts of implementation may differ between stand-alone homes and existing strata and multi-unit developments.
2. notes that there may be where insufficient space in existing strata and multi-unit developments to accommodate food organics bins in addition to the bins currently supplied by Council.
3. monitors for six (6) months the volume of rubbish placed in general waste bins supplied to stand-alone dwellings to determine if the volume of rubbish placed in general waste bins has decreased since the roll-out of food organics bins
4. at the expiration of the six (6) month period and based on the data collected in 3, reviews the number of general waste bins and food organics bins required to be supplied to existing strata and multi-unit developments to deliver the required standard of rubbish collection service
5. defers the roll-out of food organics bins to existing strata and multi-unit developments to allow Council to advise the body corporate of each existing strata and multi-unit development of the numbers of general waste bins and food organics bins proposed to be supplied to the development and to review the space available within each development to accommodate the bins without unreasonable loss of common property, parking or amenity
6. notes that Council officers have, and will continue to undertake extensive work with the community in relation to the rollout of food organics bins, including a specific focus on agreeing tailored solutions for strata and multi-unit developments.

For the Motion were Councillors Southwood, Bennison, Bryla, Flood, Kennedy, Little, Roenfeldt and Taylor (Total 8).

Against the Motion was Nil (Total 0).

**Item 11.4 NOTICE OF MOTION - DEVELOPMENT OF A SYNTHETIC TURF IN PUBLIC SPACES POLICY**

**MOTION**

That Council:

1. note that research conducted by Dr Sebastian Pfautsch, Associate Professor in Urban Management and Planning at Western Sydney University suggests that the ground temperatures on synthetic playing fields are often double those on fields with natural turf and that the 'Synthetic Turf in Public Spaces' assessment (2022) prepared by the Office of Sport Chief Scientist and Engineer, found that when daytime temperatures rise above 27 degrees, synthetic fields can inflict serious skin burns on users.
2. note that there is consensus on environmental risks and public health risks associated with synthetic turf including:
  - a) loss of biodiversity
  - b) chemical run-off contaminated by PFAS and PFOA
  - c) risk of bacterial infections

- d) lack of permeability
  - e) increased risk of non-contact related injury.
3. note that there is broad consensus on the environmental risks associated with synthetic turf surfaces exposed to waterways, particularly during flooding events and periods of heavy rain. The recent AUSMAP microplastics report found that 16% of the microplastic contamination in the Lane Cove River was from synthetic fibres including turf fibres, well above the average in the report.
4. note that modern natural turf fields such as Middle Head Oval in Mosman have demonstrated increased usage and capacity through well maintained, best practice natural turf fields that balance sporting needs with environmental and health concerns.
5. note that Council staff have taken every effort to adopt the best options available for existing synthetic turf surfaces.
6. develop a draft Synthetic Turf in Public Spaces Policy which sets out the following policy position:
- a) synthetic turf must not be used to replace natural turf on Sports Fields or in other public spaces unless there is no viable alternative to the use of synthetic turf,
  - b) all decisions to install synthetic turf (including the replacement of existing synthetic surfaces with a synthetic surface) must be referred to the elected Council for determination,
  - c) where there is no alternate option available and the installation of synthetic turf in a capital works project is proposed, the project must be developed and assessed against International best practice standards for the use of synthetic surfaces and in accordance with the NSW Governments guidelines and recommendations for Councils regarding synthetic turf (Division 5.1 Assessments – Addendum for Synthetic Sports Fields May 2025)
  - d) where synthetic turf is to be used the community will be consulted on the proposed measures that are being incorporated into the project to minimise environmental and public health risk prior to the approval of the project and subsequent commencement
  - e) where synthetic turf is removed, best endeavours are to be made to ensure that the material is disposed of in an ethical and sustainable manner.
  - f) receive the draft policy for review and endorsement to commence public consultation.
7. prepare guidance material for the community on environmentally sustainable landscape alternatives to synthetic turf available for private property, including native planting, permeable surfaces, and biodiverse gardens, and staff investigate whether development controls can be incorporated into the Lane Cove Development Control Plan to prevent the use of synthetic turf in new private developments.
8. undertake a review of the Council owned or managed locations within the Local Government Area where synthetic turf is used in public spaces and commit to prioritising replacement of synthetic turf with natural grass or environmentally sustainable alternatives subject to budget being available for the replacement.

**Withdrawn**
